 Drainage If there is difficulty funding overruns; drainage criteria could be reduced from City design requirements to match design TxDOT requirements TxDOT stated LG off-system projects can be designed to existing drainage conveyance or better Current design event for cross culverts is 25-year TxDOT requested drainage review meeting prior to 30% DDRT TxDOT stated there is a drainage report for the TxDOT SH 123 project. The Cordova Rd project should complement the SH 123 drainage design. Drainage sheets to follow SAT District format Pavement Design TxDOT requested the pavement design report be sent to jose.emilio.ramos@txdot.gov DSRT The need for a DSRT will be determined at a later date Letting Date Letting moving to FY 2026 CoS to supply request to amend TIP TxDOT/CoS to coordinate with MPO
